Services Overview

From the war room to the courtroom, Litigation Services Corporation is on your team, helping you to prepare and present your case. You can rely on us to create winning demonstratives and assist in conveying them to the judge and jury in the most powerful way possible. Our trial technicians have the experience to ensure that your exhibits and presentations hit the mark. We offer expert trial related services, including:

- In-Court Technicians
- War Room Support
- Trial Exhibits

In-Court Technicians

At Litigation Services Corporation, we understand that your mission is to win. At trial, having an experienced, engaged and intelligent presentation technician improves the power and sophistication of your message to the judge and jury. Litigation Services uses the latest annotation, comparison and emphasis tools to bring the attention of the jury to areas of the documents that you need them to quickly and fully understand. Let our experience help you to accentuate your arguments, present important memory points to the jury for lasting impressions, and provide vivid imagery to maintain interest. .

War Room Support

We help you prepare to win before you ever step into the courtroom. As a member of your litigation team, our technicians provide engaged and strategic support in preparation for presentation. We organize the evidence, prepare exhibits, create video clips and help to pre-determine simple and complex visual flow plans for maximum impact. In the heat of the battle we can help to facilitate dynamic and expeditious adjustments to your approach in order to create powerful responses to your opposition.

Trial Exhibits

A well planned and expertly presented exhibit can leave a lasting impression. Litigation Services uses state-of-the-art technology to focus the attention of the judge and jury with dynamic exhibits created with proven design techniques. From trial boards to 2D and 3D animations, the power of sophisticated tools to create compelling imagery to support your case is at your disposal. We help you create and prepare demonstratives that perfectly fit your strategy.
